

# APPROVED LABORATORY COATS at WEILL CORNELL MEDICINE

## Laboratory Coats:

- Are made with a tightly woven poly/cotton blend to slow the spread and penetration of contamination to your personal clothing or skin.
- Minimize contamination of clothes and skin from contaminated surfaces.
- Are designed to be quickly removed in the event of a spill or splash.

## Always:

- Wear a laboratory coat when you are working in the laboratory.
- Wear your laboratory coat fully closed.
- Remove your laboratory coat when finished working in the laboratory (e.g., going to lunch, meetings).
